

BRADY S. HERWIG

954-494-1314 | bradyherwig@outlook.com

EDUCATION

Liberty University

B.S. Computer Science: Data Science

Lynchburg, VA

August 2024 – Present

- **GPA:** 3.69
- **Relevant Courses:** Python and R for Data Science, Computer Concepts and Application, Introduction to Probability and Statistics, Linux Operating Systems, Introduction to Discrete Mathematics

PROFESSIONAL EXPERIENCE

Outback Steakhouse

Davie, FL

Server Support

February 2023 – October 2023

- Delivered food orders efficiently, supporting the servers by completing high priority tasks during peak hours
- Coordinated task delegation among support staff to maintain smooth service flow

Outback Steakhouse

Davie, FL

Server

October 2023 – August 2024; May 2025 – August 2025

- Managed up to 10 tables simultaneously, applying de-escalation and rapid decision making in a fast paced environment
- Communicated with kitchen staff, bar staff, and managers while staying on time, making sure each customer was met with quality dining experience
- Demonstrated emotional resilience and multitasking ability in a fast paced work environment in order to tackle multiple issues simultaneously

DATA SCIENCE PROJECTS

Customer Segmentation via Unsupervised Learning (R)

CSCN 321: Python and R for Data Science

- Performed customer segmentation on synthetic retail data using R, engineering RFR features and standardizing for clustering and PCA
- Implemented and compared multiple clustering methods, determined optimal clusters via silhouette/elbow methods, and validated with PCA
- Interpreted segments and delivered stakeholder-focused recommendations in a Quarto report

Stock Price Forecasting with Regression & Time Series (Python)

CSCN 321: Python and R for Data Science

- Analyzed historical Microsoft stock data to forecast daily closing prices using supervised learning and time series methods
- Performed data cleaning and exploratory analysis to identify trends, volatility, and anomalies in price and volume over time
- Built and evaluated a linear regression model to capture long-term trends, reporting MAE and RMSE on a temporally separated test set
- Decomposed time series data into trend, seasonality, and residuals, and assessed stationarity using differencing and ACF/PACF plots
- Implemented and compared two time series forecasting models, analyzing accuracy, strengths, and limitations relative to linear regression
- Synthesized results across models and communicated forecasting insights and limitations to a non-technical audience via a written report

OUTSIDE EXPERIENCE

Calvary Christian Academy

Fort Lauderdale, FL

Engineering Team Communications Lead

September 2023 – April 2024

- Along with 3 other classmates, developed a product to solve a real world problem
- Spent hours of time researching and planning outside of school hours
- Communicated with professionals in order to get feedback and reviews
- Presented project to a board of engineers and got the highest average rating in school history

SKILLS & INTERESTS

Skills: Python, R, C++, Quarto, Visual Studio Code, Word, PowerPoint, Communication, Relationship Building

Interests: Music, Guitar, Video Games, Board Games, Golf
